

OMRON Industrial Automation Academy offers training plans appropriate for your situation.
Please select from “Step 1. Plan” and “Step 2. Style” in combination.

Step 1. Plan

There are five models available for those who are responsible for human resource development in the manufacturing industry, and for teachers who are responsible for student advising at educational institutions, such as technical universities and professional schools.

Please select a course appropriate for your learning plan from the Globe model that allows people working in multiple areas or countries to learn in a homogenized standard curriculum, the Student model based on the syllabus of school education, and so on.
